

SAFETY DATA SHEET

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade Name: **D-128**
Product Code: VED331

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance/Mixture: EPA Registration Number: 10324-155-44084
Disinfectant. This product is intended to be diluted prior to use. For further information refer to the EPA Registered product label. Uses other than those identified are not recommended.

Product dilution information: Disinfectant/Non-Food Contact Sanitizer: 1 ounce per gallon. Refer to EPA registered label for product dilution/application directions for use.

1.3 Details of the supplier of the safety data sheet

Company: Vedco, Inc.
5503 Corporate Drive
St. Joseph, MO 64507
Phone: 816-238-8840

Prepared by: Product Safety and Regulatory Specialist
Date prepared: 11/14/2022

1.4 Emergency telephone

Emergency telephone number: 800-255-3924 (CHEMTEL)

2. Hazards identification

2.1 Emergency overview

Appearance: Clear green solution with floral odor
Precautionary statements: Causes severe skin burns and serious eye damage
Harmful if swallowed

GHS classification

Health

| | |
|-----------------------------------|-------------|
| Serious eye damage/eye irritation | Category 1 |
| Skin corrosion/irritation | Category 1B |
| Acute toxicity (oral) | Category 4 |

Product at Use-Dilution

| | |
|-----------------------------------|-------------|
| Serious eye damage/eye irritation | Category 2B |
|-----------------------------------|-------------|

2.2 GHS label elements, including precautionary statements

Hazard pictograms/symbols

Signal Word: DANGER!
Hazard Statements: H302: Harmful if swallowed
H314: Causes severe skin burns and eye damage

Precautionary Statements: **Prevention**
P262: Do not get in eyes, on skin, or on clothing
P264: Wash affected areas thoroughly after handling
P270: Do not eat, drink or smoke when using this product
P280: Wear protective gloves and eye, face and foot protection
Response
P301+312+330+331: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Do NOT induce vomiting.
P303+P361+P353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water
P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310: Immediately call a POISON CENTER or doctor/physician
P363: Wash contaminated clothing before reuse
Storage
P233: Keep container tightly closed
P234: Keep only in original container
P501: Dispose of contents and container to an approved waste disposal plant

Product at Use-Dilution

Hazard pictograms/symbols None

Signal Word:

Warning

Hazard Statements:

H320: Causes eye irritation

Precautionary Statements:

Prevention

P264: Wash affected areas thoroughly after handling

Response

P305+P351+P338+P337+P313: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

2.3 Other hazards

No information available

3. Composition/information on ingredients**3.1 Information on components and impurities**

| Chemical name | CAS number(s) | GHS Classification | Concentration, % |
|---|----------------|---|------------------|
| Alkyl (C ₁₂₋₁₆) dimethylbenzyl ammonium chloride | 68424-85-1 | Serious eye damage/eye irritation: Category 1, Skin corrosion/irritation: Category 1B, Acute toxicity (oral): Category 3, Acute toxicity (dermal): Category 4; H301, H314, H318 | >=8.03-<=8.87% |
| Didecyl dimethyl ammonium chloride | 7173-51-5 | | |
| Tetrasodium EDTA | 64-02-8 | Serious eye damage/eye irritation: Category 2B, Acute toxicity (oral): Category 4; H302, H319 | >=3.80-<=4.20 |
| <i>Surfactant-Choose between no surfactant, specific nonionic surfactant or amine oxide</i> | | | |
| Nonionic surfactant | List specific* | Serious eye damage/eye irritation: Category 1, Acute toxicity (oral): Category 4; H302, H318 | >=1.1-<=1.3 |
| <i>Amine oxide-Choose either octyldimethyl amine oxide or lauryldimethyl amine oxide</i> | | | |
| Octyldimethyl amine oxide | 2605-78-9 | Serious eye damage/eye irritation: Category 2A, Skin corrosion/irritation: Category 2; H315, H319 | |
| Lauryldimethyl amine oxide | 1643-20-5 | | |
| Other components | | Not classified | Balance |

* List nonionic surfactant used from the Confidential Statement of Formula: 9003-11-6, 9016-45-9, 34398-01-1, 66455-15-0, 68131-39-5, 68131-40-8, 68439-46-3, 68551-12-2, 78330-20-8

Product at Use-Dilution

Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting, in accordance with local regulations.

4. First aid measures**4.1 Description of first-aid measures**

General advice: Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.

Eye contact: Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.

Skin contact: Take off contaminated clothing and shoes immediately. Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.

Ingestion: Do NOT induce vomiting. Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Seek medical attention.

If inhaled: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

Product at Use-Dilution

Eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists.

Skin contact: No known effect after skin contact. Rinse with water for a few minutes.

Ingestion: Get medical attention if symptoms occur

If inhaled: No special measures required. Treat symptomatically.

4.2 Most important symptoms and effects, both acute and delayed

Risks: The most important known symptoms and effects are described in the labeling (section 2.2) and/or in section 11. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.

5. Firefighting measures

Flash Point and Method: None

- 5.1 Extinguishing media**
Suitable extinguishing media: The product is not flammable
Use media suitable for the material that is burning
Unsuitable extinguishing media: No data available
- 5.2 Special hazards arising from the substance or mixture**
Special hazards during fire fighting: Container may rupture on heating
On combustion or on thermal decomposition: May include carbon oxides, nitrogen oxides
- 5.3 Advice for firefighters**
Special protective equipment for firefighters: As in any fire, wear NIOSH/MSHA approved, pressure-demand self-contained breathing apparatus and full protective gear.
Specific firefighting methods: No special methods required. Move containers from area if it can be done without risk. Cool fire-exposed containers with water from side. Contain the extinguishing fluids by diking.

6. Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures**
Spill area may be slippery. Wear appropriate protective equipment (See Section 8).
- 6.2 Environmental precautions**
Avoid contact of spilled material and runoff with soil and surface waterways
- 6.3 Methods and material for containment and cleaning up**
Recovery: Stop leak if safe to do so. Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non-metal waste container for disposal. Dike large spills with soil or sandbags to contain it and prevent its spread. Keep in suitable, properly labeled, closed containers for disposal.
Decontamination/cleaning: Wash non-recoverable remainder with large amounts of water. Clean contaminated surfaces thoroughly. Recover the cleaning water for subsequent disposal.
Disposal: Dispose of in accordance with local regulations
Additional advice: Spill area may be slippery

Product as Use-Dilution

Use a water rinse for final clean-up

- 6.4 Reference to other sections**
No information available

7. Handling and storage

- 7.1 Precautions for safe handling**
Technical measures: Does not require any specific or particular measures
Advice on safe handling and usage: Wear appropriate protective equipment including long chemical resistant gloves, chemical splash goggles and protective footwear. Handle in accordance with good industrial hygiene and safety practice. Do not spray toward face. Wash affected areas after use. Do not taste or swallow. Avoid breathing vapors or mists. Use only with adequate ventilation. Product residue may remain on/in empty containers. All precautions for handling the product must be used in handling the empty container and residue. FOR COMMERCIAL AND INDUSTRIAL USE ONLY.

Product at Use-Dilution

Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

- 7.2 Conditions for safe storage, including any incompatibilities**
Technical measures for storage: Does not require any specific or particular measures
Storage class (TRGS 510): Non-combustible, corrosive materials
- Storage conditions**
Recommended: Keep container tightly closed. Opened containers must be carefully resealed and kept upright to prevent leakage.
Incompatible products: Hazardous reactions may occur on contact with certain chemicals. Refer to the list of incompatible materials section 10: "Incompatible materials"

Product at Use-Dilution

Keep out of reach of children. Keep container tightly closed.

- 7.3 Specific end use(s)**
No information available

8. Exposure controls/personal protection

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

8.1 Control parameters

Components with workplace control parameters

| Components | Value | Control parameters | Basis |
|----------------|-------|--------------------|-------|
| Not reportable | | | |

8.2 Exposure controls

Control measures

Engineering measures: Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.

Personal protective equipment

Respiratory protection: In operations where mists are generated, wear a NIOSH/MSHA approved respirator that has been selected by a technically qualified person for the specific work conditions.

Hand protection: Wear long chemical resistant gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Wear chemical splash goggles.

Skin and body protection: Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.

Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:
1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures: Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use.
The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment.
Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

Product at Use-Dilution

Respiratory protection: A respirator is not needed under normal and intended conditions of product use

Hand protection: No protective equipment is needed under normal use conditions

Eye protection: No protective equipment is needed under normal use conditions

Skin and body protection: No protective equipment is needed under normal use conditions

Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:
1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet
3) Wash exposed skin promptly to remove accidental splashes or contact with product

9. Physical and chemical properties

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Mason Chemical Company for additional information.

9.1 Information on basic physical and chemical properties

Appearance: Clear green solution

Odor: Floral odor

Odor Threshold: No information available

pH: 6.0- 8.0 (1% Solution)

Freezing point: No information available

Melting point/range: No information available

| | |
|---|-------------------------------|
| Boiling point/boiling range: | >105°C |
| Flash point: | > 105° C (None to boiling) |
| Evaporation rate: | No information available |
| Flammability (solid, gas): | Not applicable |
| Flammability/Explosive limit: | No information available |
| Auto-ignition temperature: | No information available |
| Vapor pressure: | No information available |
| Vapor density: | No information available |
| Density: | 1.00 g/ml, 8.3 lbs/gal (25°C) |
| Solubility: | Water solubility: soluble |
| Solubility in other solvents: | No information available |
| Partition coefficient: n-octanol/water: | No information available |
| Thermal decomposition: | No information available |
| Viscosity: | Low viscosity |
| Explosive properties: | No information available |
| Oxidizing properties: | No information available |

Product at Use-Dilution

| | |
|--------------|----------------------|
| Appearance: | Clear green solution |
| Odor: | Floral odor |
| pH: | 6-8 |
| Flash point: | Does not flash |

9.2 Other information
No information available

10. Stability and reactivity

10.1 Reactivity

No information available

10.2 Chemical stability

Stable and non-reactive under normal conditions of use, storage and transport

10.3 Possibility of hazardous reactions

No information available

10.4 Conditions to avoid

No information available

10.5 Incompatible materials

Anionic surfactants

10.6 Hazardous decomposition products

Oxides of carbon and nitrogen

11. Toxicological information

Product Summary:

Causes severe skin burns and serious eye damage. Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly digestive tract. Vapors and spray mist may irritate throat and respiratory system and cause coughing.

No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

Information on likely routes of exposure:

| | |
|---------------|--|
| Eye contact | Corrosive. Causes serious eye damage. Symptoms may include pain, burning sensation, redness, watering, blurred vision or loss of vision. |
| Skin contact | Corrosive. Causes severe burns. Symptoms may include burns, blisters, redness and pain (which may be delayed). |
| Ingestion | Harmful if swallowed. Causes burns/serious damage to mouth, throat and stomach. Symptoms may include vomiting, nausea, and/or feeling of general unwellness. |
| Inhalation | May cause irritation and corrosive effects to nose, throat and respiratory tract. Symptoms may include coughing and difficulty breathing. |
| Sensitization | No known effects |

Product at Use-dilution

Product Summary:

Causes eye irritation

No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

Information on likely routes of exposure:

| | |
|---------------|---|
| Eye contact | Causes eye irritation. Symptoms may include irritation, watering, redness |
| Skin contact | No known significant effects or critical hazards |
| Ingestion | No known significant effects or critical hazards |
| Inhalation | No known significant effects or critical hazards |
| Sensitization | No known effects |

11.1 Information on toxicological effects

Acute toxicity

| | |
|-------------------------|------------------------------|
| Acute oral: | LD ₅₀ >1000 mg/kg |
| Acute dermal: | LD ₅₀ >5000 mg/kg |
| Acute inhalation: | No information available |
| Acute toxicity (other): | No information available |

Skin corrosion/irritation

Skin irritation: Corrosive. Causes severe burns

Serious eye damage/eye irritation

Eye irritation: Corrosive. Causes serious eye damage.

Respiratory or skin sensitization

Sensitization: Not classified as sensitizing by skin contact

Product at Use-dilution

Acute toxicity

| | |
|-------------------------|------------------------------|
| Acute oral: | LD ₅₀ >5000 mg/kg |
| Acute dermal: | LD ₅₀ >2000 mg/kg |
| Acute inhalation: | No information available |
| Acute toxicity (other): | No information available |

Skin corrosion/irritation

Skin irritation: No known significant effects or critical hazards

Serious eye damage/eye irritation

Eye irritation: Causes eye irritation

Respiratory or skin sensitization

Sensitization: Not classified as sensitizing by skin contact

Mutagenicity

Genotoxicity in vitro: No information available

Genotoxicity in vivo: No information available

Carcinogenicity

Carcinogenicity: This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH

Toxicity for reproduction and development

Toxicity to reproduction/fertility: No information available

Developmental toxicity/teratogenicity: No information available

Specific Target Organ Toxicity (STOT)

STOT-single exposure: No information available

STOT-repeated exposure: No information available

Aspiration toxicity

Aspiration toxicity: No information available

Other Hazards

No information available

12. Ecological information

12.1 Toxicity

Aquatic toxicity: Toxic to aquatic life

12.2 Persistence and degradability

Biodegradation: No information available

12.3 Bioaccumulative potential

Partition coefficient: n-octanol/water: No bioaccumulation is to be expected (log Pow<=4)

Bioconcentration factor (BCF): No information available

12.4 Mobility in soil

Known distribution to environmental compartments: No information available

12.5 Results of PBT and vPvB assessment

No information available

12.6 Other adverse effects

Environmental assessment: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

13. Disposal considerations

13.1 Waste treatment methods

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Product disposal:

Observe all applicable federal, state, and local regulations

Packaging:

Remove all residue when emptying

Product at Use-Dilution**Waste treatment methods**

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Product disposal:

Diluted product can be flushed to sanitary sewer

Packaging:

Discard empty container in trash or offer for recycling

14. Transportation information

DOT Hazard Classification:

UN number: 1903

UN proper shipping name: DISINFECTANTS, LIQUID, CORROSIVE, N.O.S. (QUATERNARY AMMONIUM COMPOUND)

Transport hazard class(es): 8

Packing group (if applicable): III

Limited Quantity exemption: Packaging sizes 5L or less

Product at Use-Dilution

DOT Hazard Classification:

Not applicable

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Notification status:

Not applicable
